- Hosted 2 leadership conferences with over 500 attendees and lead student initiatives.
- Worked with a team of 16 Charter Members to host monthly community events.
- Lead 6 leadership/emotional intelligence workshops and coordinated large food lines.

TOP PROJECTS

Jan 2019

Until After (*Beautiful private journaling app that can unlock when you die*)

- Serializing data in jQuery to run an axios put request to save journal text in realtime.
- Utilized CSS Animation Keyframes to allow users to easily digest thousands of journals.

Oct 2018

Voters Guide (*View, save and share your votes easier than ever*)

- Took wireframes from conception to implementation in Node MVC architecture.
- Used Passport JS to authenticate users and deployed database on MLab.

Nov 2017

DiscoverTab (*Automated time tracking Chrome extension*)

- Used Chrome Storage and Tabs API to store all your website time spent in a dictionary.
- Used vanilla JavaScript to flawlessly track time and modify the DOM.

Oct 2016

Higher Hires

- Worked in a team of 3 to bring a new dimension of biometric data into video interviews.
- Used Microsoft Cognitive Services API to retrieve biometric data from video.

AWARDS
